

September 15, 2011

Dear Middle and Senior School Parents,

You are cordially invited to **our Curriculum Information Night on Wednesday, September 28**. This event will begin promptly in the **Gym at 6:30 p.m.** The purpose of this important event is to inform you about the School's goals for the year, and to give you specific information about the curriculum that your daughter will be following. During the evening, you will have the opportunity to follow a modified version of your daughter's timetable. This will enable you to meet and hear from each of her teachers, who will outline for you their curriculum goals, teaching philosophy and academic expectations

At Elmwood, we believe that an ongoing conversation between home and school is a vital component in providing an outstanding education for each of our students. Our annual Curriculum Information Night provides an excellent starting point for this dialogue. We look forward to seeing you at 6:30 p.m. on September 28.

Warm regards,

Kate Angell  
Deputy Head of School
