

March 10, 2011

Dear Parent/Guardian,

Your daughter has been selected to represent Elmwood School at the Ottawa Regional Science Fair on Friday, April 1 and Saturday, April 2, 2011. During this event, students have the opportunity to interact with science professionals, engaged community members and with fellow students who share common interests and a passion for scientific exploration and communication.

The Ottawa Regional Science Fair will be held at Carleton University. The students are responsible for their own transportation to and from the event. On Friday, April 1, the students will set up their projects from 4- 6:30 pm. During the all-day event on Saturday, April 2, the students will present their projects to judges, their peers and the public.

The Ottawa Regional Science Fair is not a teacher-supervised event; parents are responsible for the supervision of their children. For more information regarding set up time, location, project policies and regulations please visit the Ottawa Regional Science Fair website: www.orsf.ca.

Thank you for your support of our young scientists.
